I am changing my career path back to my love of technology and Software
Engineering. I will graduate this February from a Full Stack Engineering bootcamp at the University of AZ.
Adding this to my Mechanical Engineering degree and my most recent work experience of training
groups of agents on sales and software through Zoom conferences, Microsoft Teams and the older
Join.me should make me a great addition to any Software Engineering Team.

EXPERIENCE

1993 – PRESENT
DIVISION LEADER, SELF EMPLOYED

*Trained virtually and in office sales team up to 150 agents
*Awarded #1 in nation out of 100 teams several years.
* Won multiple awards and trips for having top production team

1980 – 1993
ENGINEER, BOEING, USAF, MORGAN DESIGN

*Military contracts
* Secured contracts and team designed automated machinery
